	Version 1.0	3

2. Overview

This document details how to advertise courses on the Jobg8 network.

3. Course Providers

To advertise courses on the Jobg8 network at least one course provider is required to be setup. Per provider the following information is required:

Provider Detail	Description
Name	The name of the course provider. This can be a maximum of 255 characters long.
Description	A short description of the course provider. This can be a maximum of 4000 characters long.
Logo	The logo of the course provider. The ideal logo size is 200px wide by 100px high.
Provider ID	This is not required but is used to identify different providers if more than one is being used.

4. Course Spreadsheet Import

Jobg8 has a course import spreadsheet. It is recommended that this is used to minimise the time it takes to integrate your courses onto the Jobg8 network. However Jobg8 can support alternative spreadsheets and other import mechanisms, which can be discussed with your Account Manager.

If using a provided spreadsheet please complete with as much information as possible and forward to your Account Manager. This will be used as a working document for any future changes or updates you wish to make.

4.1 Snapshot Content

A spreadsheet import uses a snapshot approach, which is where Jobg8 will parse the spreadsheet to deduce the following:

- **Add**
Course is in the spreadsheet and not currently on the Jobg8 network, so the course will be added.
- **Amend**
Course is in the spreadsheet and already on the Jobg8 network, so will be compared for differences and amended accordingly.
- **Delete**
A course is on the Jobg8 network and not included in the spreadsheet and therefore will be deleted.

5. Course Details

The table below details the course information that Jobg8 is able to accept in order to advertise courses on our network. Please ensure that you include as a minimum, our required details. We recommend that you include as many of the details as possible, as this will increase the quality of your course postings and the potential lead generation.

5.1 Detail Information

Course Field	Required	Description	Amendable	Default Value	Extra Validation
CourseID	Yes	A unique reference to identify the course	No		<= 100 characters
EnquiryEmail	Yes	Email used to send leads to the course provider	Yes		<= 255 characters and in a valid email format
CourseTitle	Yes	The title of the course	Yes		<= 255 characters
Overview	Yes	An overview of the course	Yes		Must be >= 50 characters excluding HTML
Description	Yes	The full description of the course	Yes		Must be >= 50 characters excluding HTML
Subject	Yes	The course subject. Appendix A lists all subjects and associated sub subjects	No
